

A warm invitation!

Dear

You are kindly invited to take part in some research. Our school is doing this research with UCL, a university in London. The research is about the FPQ, HPQ, & EPQ.

Taking part is 100% optional.

If you decide to take part, you'll be invited to join me and about 4 of your friends/peers to discuss your thoughts about doing your project. Discussions will be audio recorded.

We can agree a time that suits you.

A few weeks or so later, you'll also be asked to do a questionnaire.

When it's all done, you'll be given a short report to let you know what was found out. A full report will be published on the UCL website.

We think that you'll enjoy and learn a lot from taking part.

If you are interested, please let me know and I'll give you some more info.

J. Stone
