alexandra
and
the
because
to
was
that
it
you
i
of
yeah
a
essay
not
my
do
lot
really
a
essay
not
my
do
lot
really
because
to
was
that
it
you
i
of
yeah

definitely than about
something think project lucy
oh would much lydia feel well lot
like going did fpq really ana then this an good laughter
that all kind Of get but her with just out how doing
js could school some not i SO had me yeah at it
to a daisy were is or for do very things as in my it
they be know the when quite hazel We what can
have thought want because actually year if and you
more

you something want write much actually like mean different topic no were definitely with at about have what for know need in just doing if people fpq can how there and to it then get this than when but well they still js up the so are um why had would they now of did all quite ava them going we one yeah she that not essay or some was your really a project think on got more really a that my remember done probably remember

cassandra just the
because write other
quite out know and as read what that project
when all know no this pippa but say on going
he if with not me lot then did isla how had i yeah
daphne do is be she a like good my book it
them think feel a for at also have
bit to there would find iris in help js
people time topic well can really stuff go was
dannika could want so your of about you
kind we or something research are one
doing different they

it
time out
on for
look
at with
js is if
really
the
quite
epq
this
supervisor
all lot they
because
essay year
your be
or there
mean feel
like
were
going
then
sure
just before any
kind
also
find from
think
most me
in but
project
have
do
know
much
my well
you
where
was
do
know
of
and
you
eleanor
did
how
can
other

when at subject have
felt science question gcse much
for kind like subjects remember be go of
out thing in into know than just would a and
well did what all they lot then epq to as do was
it the think quite but
always levels or with yeah your js
been not doing can get if bit me very
that sense more going writing were even
an how something had so is really
understand oh on there because my
maybe you actually

wanted
actually or then which do
but with this because people at
also more from say that an really maybe quite the
when Of lot be want them her we probably are
in about have generally going if had different
now it think all me is she would there my kind a
how good were as things on than can one your for
could well up what should SO YOU time did
they project not like doing
to read much was know and is epq
something based

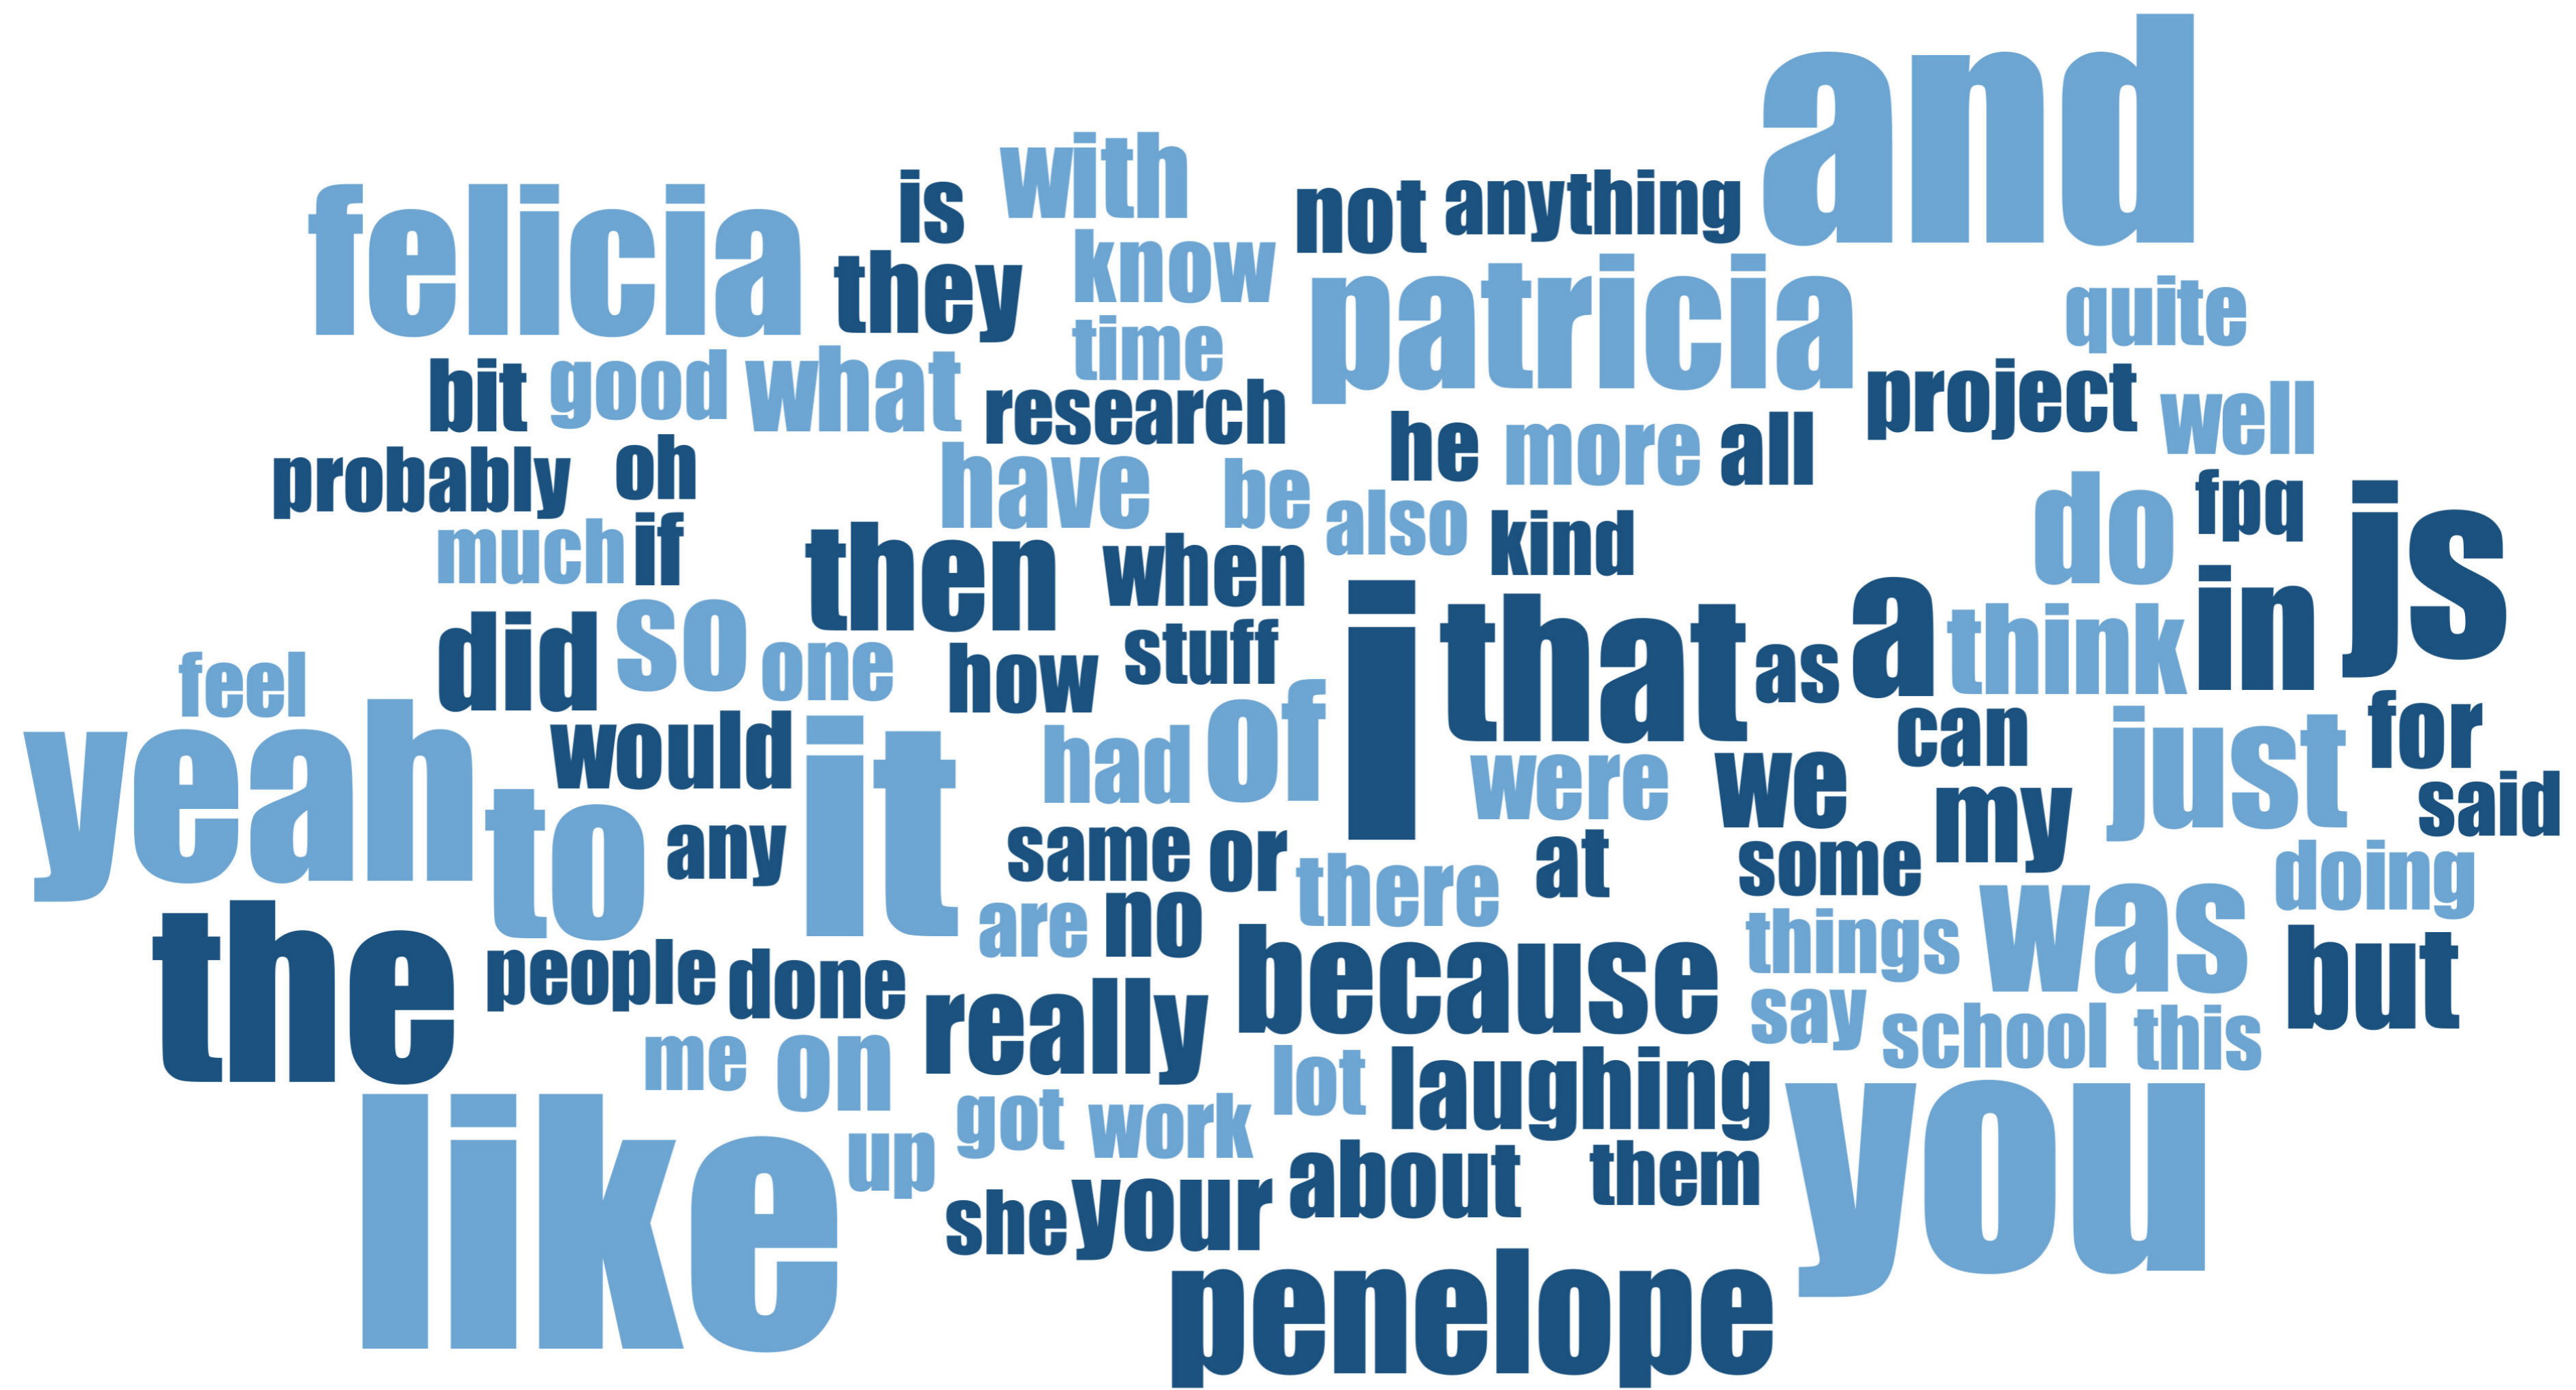

The word cloud features a variety of terms, including: **eloise**, **to**, **the**, **that**, **you**, **and**, **which**, **remember**, **see**, **something**, **project**, **then**, **would**, **done**, **for**, **out**, **before**, **friends**, **her**, **how**, **can**, **your**, **is**, **could**, **really**, **things**, **think**, **not**, **one**, **no**, **quite**, **an**, **doing**, **bit**, **with**, **when**, **of**, **what**, **if**, **but**, **does**, **in**, **do**, **like**, **so**, **topic**, **a**, **at**, **them**, **me**, **or**, **lot**, **art**, **as**, **if**, **it**, **js**, **about**, **people**, **might**, **were**, **on**, **just**, **well**, **do**, **is**, **about**, **now**, **know**, **my**, **we**, **yeah**, **very**, **they**, **most**, **more**, **school**, **research**, **want**, **had**, **yes**, **will**, **much**, **you**, **was**, **time**, **because**, **some**

then now had would
further different on who science about
going epq other want time your really level
drama doing but we think there do so kind
get what for to involved know which at indidjs
much just they are thing of how people that
the a no felt bit also was maths very when were
is things have lot class all as school with be well
done didn't yeah work an if been subjects it
you like and emilia more

and was that say like have
meghan that say like have
this done from how she if thought oh
because how she if thought oh
school would he she if thought oh
time be at quite read laughing of SO did the
but not as read there to is much
okay but not as read there to is much
what go had doing in do or people they with a
about yeah we some it
think all were really well going just fleur my good
feel work then bit no project actually are any
your one on her emily more can js
got you an when very know me
kind very

when like things people have what maybe
and think her SO were is other
only from definitely room remember We quite
they erin well referencing meno because yes
kind really more there say out i js be with for work at
doing or can an my now not had who are epq to
how lot in of all would mum she also did then
you it hard a project if know terms came
much this as about your presentation do
the on very yeah was actual time
that sure

about stuff would in really
quite fatima anything good what some
things well something martha project much like
then doing do get be school did kind
mum go do get be school help at me work to just out
the was feel had say you a my lot bit up it i
there is think people if all her this but
on know yes for going when they how not of
make why no from your so she are with that
an as teresa more we presentation or
oh js because have very or and
were yeah

freida did from because any point who
of good which epq got if an well was for doing notes
this think when be some she one then hpaq it had
or could project no some she one then hpaq it had
that just do get thought ijs is at as so it had
can her kind we would ijs is at as so it had
the to know lot like how say your yeah yes with
what they you all on quite where have
much me you up people but were
more remember not those into
and very

personal
good quite for
philosophy we
not understand
YOU
of
but her because
know on my think he m
an such bit well which
do the was up with time no or
just like have feel there
would in so been any
could essay english epq also
that were other then
and
kind they can as js at felt
did things what had
one why
me your
yeah
guess
sort
who
as js at felt
to
it
how mean
say about
george

and
definitely
not know math school if hannah were with at think
yeah as did really people quite things do the had eqq
time are but than kind very up much so to
is like wanted on me YOU what work said lot of it
just the be is there well would about one because we
from or in then my go your which because for
could or in then my go your which because for
this out she they have more research why
always that used them when a all
understand into

historian interested looking
being one writing focus could few
the on read information because from at
she would YOUR with able We their think had do yeah that
in so different write an to is sort of and
doing have articles as be always is well lot me get
epq about like you did which conflict wanted a
were my use history really then it
harry argument make quite something
reading

is the to that
but he henrietta much said would
at did more with if or know really YOU
because lot quite something very well just yeah
one some them for like is not she get up got
in questions it on we do kind what say bit other
your was it also do me had umm of a and
mary how her doing time my so there were they a
all be make then sort my SO any out as could
about have laughing think no genevieve
when cordelia think before from
project things

research probably
presentation at then opportunity
this one because could yeah already she
just school some they project have we get to
the present hpa evening more on think of kind
did like or it for both me guess also if would thought
why great day well first in but how no what so good an little
do really hermione were was js a and
most yes with people doing as almost not going
you when about something know be question
mum is izuku bit nervous remember
that your other wanted my
applied very

jasmine

that

really

something

been

who their

know

me

studies

quite

no

as with
he are

think

them epq

looking

the

those

be what

any

do of have

on

your not

diet going

if

when

also

but SO

this study

it

it

from

how

in

my a

one

doing they

say

would

into

and

just

all read focus time

more

got

project for can or was

people

yeah js

did

terms up is like

at go

school

because

we m work

other

about now

want to

she you

there

had

jessie

like

about

well

them really

everything think

laughing wanted

some

this

if

mum not what

how

it

little

actually

because

understand

did

then

which

all one do

he

would

from

no just on

but more

going been into

to

to

bit

there at

quite

go

my

got

time be in

in

is me

they an

yeah

things

up

so

essay

lot

physics

was

had

get

js

as of that

have

know

your

were

or

didn't much

obviously

a

when

kind out

the

presentation plan

any

for

and

can

you

and those my no want project things work
don't get where quite miranda when but
going this now probably because think thompson had
wasn't for probably because think thompson had
that not she how some think thompson had
a is on fpq can with kind her of or was it
good an in all then well do still about doing bit would
be to just out your know time the did if like
as even say more actually we one at are
they mum me done johanna so got js yeah
you really have

something
your there will
kind could an like actually some get say
friends go quite know to johanna mia
just when obviously me about this
how year just be work feel with my out want for lot
year going she can had of no were did if bit that
from jsdo well then so at good what on time in one
things really done them but any we or think it
the because yeah wanted more have a
was are would is as not project and all a

that suppose music
understand be get example
had an for them something time
which about did always really been are
all just what some lot particular issues other when
up same people on best from were yeah kind
karl where well going point in how and but to
could so js felt not do know way law of
the have say or with good also is my as
me at would think epq like different feel
things they she certain this it who there can
one being because a if was
your you

the then not there topic doing when thinking mhm
going felt much other good
be kind all time from want to like
if how as laughing because lot me on
js do of well no are say up it at feel a leah
would one
was just very yeah i
know is can than really levels first about but quite
epq my for have she maybe work in school any
did bit biology done think with and
you or were both level that
more those anything

something
school own as could but
project thought remember
that not sure kind did for thing to or
one well can bit good were we lot just
get time what read were we think is
it was the then on - be quite think is lot just
and me had have Of js if are they all people
so in got my very laughing do know a like
really way more from because going
things which wasn't luna year say about at
there you mean yeah he your
would doing hpq

that because this going probably much there done
something actually would have if things say
bit had when laughing one do oh
well for your philosophy remember js the it
at she did more no kind is we an who to and
work quite Of yeah get with he a then maybe
which think wasn't not epq my just felt all in
but doing put KNOW very me how SO be down
read from as they good really what about like
feel was maryanne were or YOU

people questions different that be
them helped do supervisor is
really melissa she lauri but know like
don what a your then for about yeah at her well
js think bit get we time sort at well
before think to when lot in feel all had way
have from on things YOU they he as would with
one if my SO project not over did very some just
the something could quite or stuff obviously how
much say more going because this
done it thought were good of and
was there

the it what about harrison there because yes was she
her much js bit like are only know ia then to in you and
just down if some how had work they but school from is
out for all thing maths an does me this of
with would one have really kind will going
your any students year mx when not sort very epq so
as at what about harrison on level done yeah
there because yes was data doing be that
she get well research said
different psychology

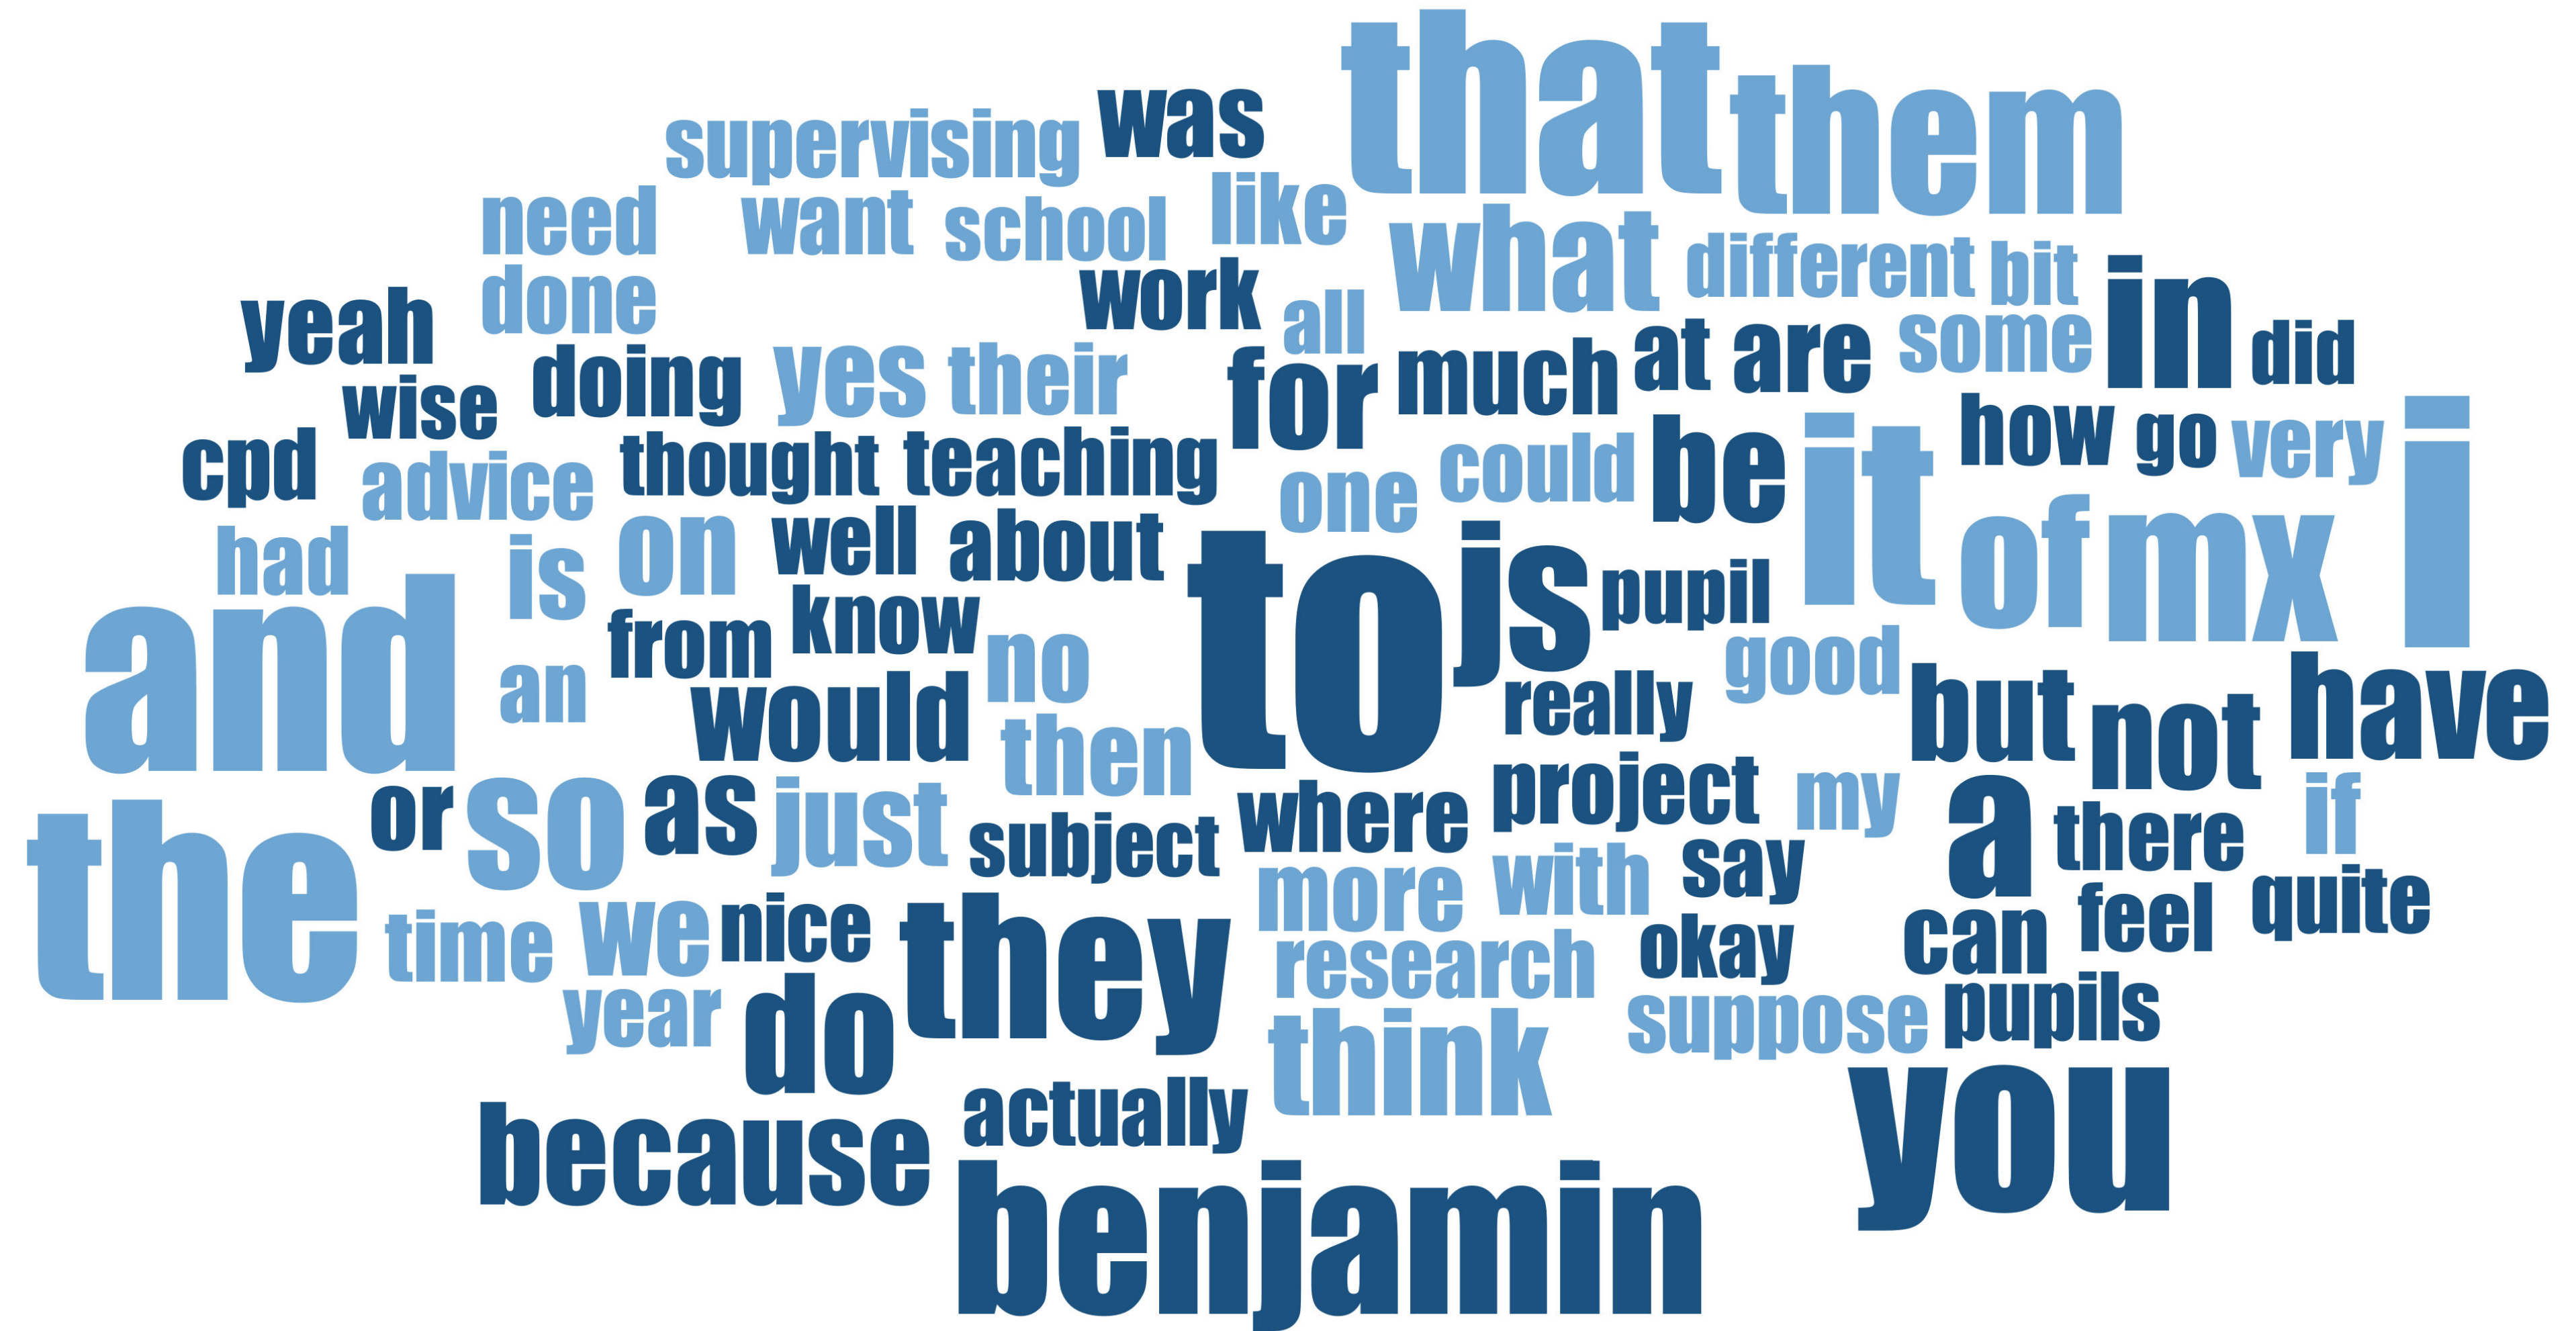

that
think
yeah
research
obviously
if
bit
one
for
from
very
your
students
going
would
but
their
then
kind
level
her
at
do
no
an
this
on
about
with
just
it
were
go
those
had
is
some
oh
got
school
how
there
like
all
to
people
be
know
they
I
have
epq
was
of
a
as
me
JS
lot
or
actually
up
get
when
out
not
in
my
more
SO
project
them
you
quite
work
can
she
say
we
really
did
been
the
well
time
because
are
andrews
and

she and that to like have is it the we they was because year different could about with more this said maths really mx all up in for not her but bit done so one just last probably time back gcse on be like lot doing to them now project stuff or be like on back gcse time have is been come there some if just last probably bit but mary her at how go if one done out as our for not of you had did do what so is no mx all up in it she yeah a need think maths really can kind things quite well then more this said something year different could about with making get because they was make got we made know i would atkinson the i

the and know do well have actually
year were how this just been work kind yes one
had student is about was so
think it we her of
to that a atwood with my or which d
got your things MX really more but
say you she
thought not our well can why be all for me they because
good some quite students would did those js as them by tia could then no jane
mean if on able way there end are who own yeah perhaps an at in very
done a atwood with my or which d got your things MX really more but
say you she

that project something as interesting students
people would way want
all but when doing stuff think they
other your who SO what good out about one
be just like is not with js done come
say very i have those to in it
was them then me are there no do
at student music were get some had
things an year more on their MX see got go or of
barrett really thing she actually well
how my yeah you because can a know
qualification a

that was beaumount think what them away as
she there no sure child most at need in do of fit to
going they people year good we to
have her all i be bit said js me about say but don is
mx your by on could or more work not actually so
time this then would are journey questions easy
did know something out an
really you question because

presentation bit barbara through questions
perhaps knew little had terms going found
MX with really wanted project year having
things yes maybe at able data looking needed or
quite into much think like when from in that
i all time on one as her she js laura then so year
to did is lot papers we up be very could were there for
it look but do would what was how a of
the about just thoughts have idea a
sort feel more because actually
science know black and

quite did research with that
this level well so much one had
for bit but learning them by have her
is about pupils who like some YOU more at
of he all can could project think kind doing no and
she to be then in the got get are found
self students star on which just MX it
from really yeah want was we different not how
as an when me because js there what
they a if those their do way been would
epq something cornwell actually

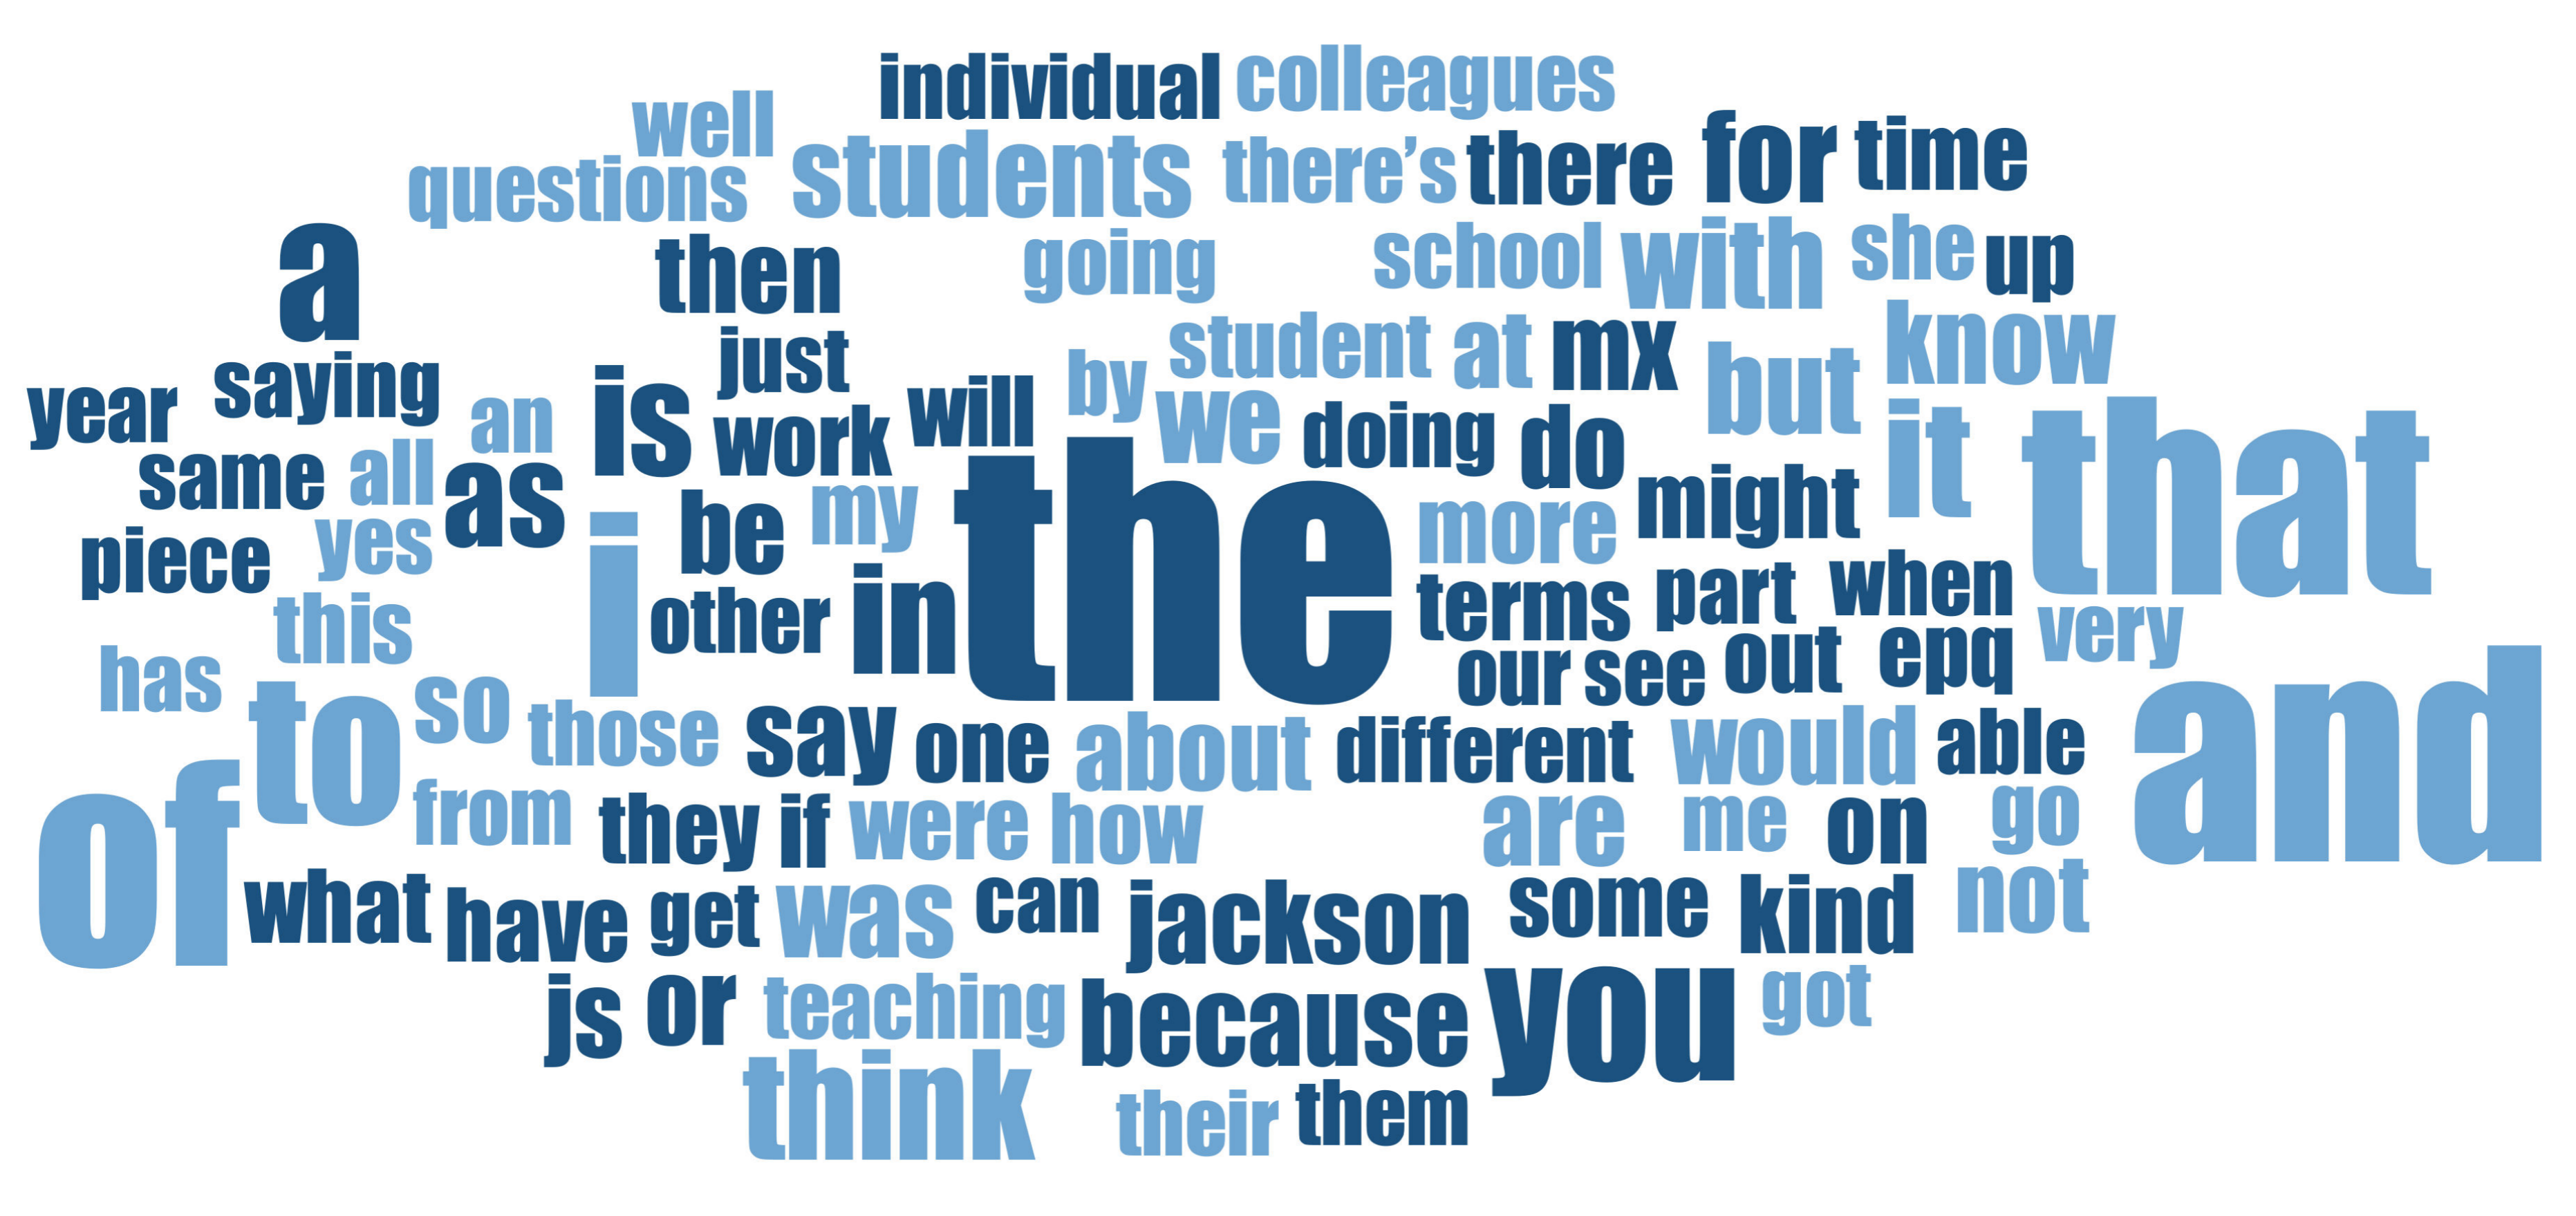

think fractals
which should they time are
then depth interesting they need ishe
had my how students yeah deep
up what something no by actually if
very the this some mx going would in more
when one life jssso but it to
a as be we do isthat little just like history
philosophy from there did really you an
not jessica his too her go who absolutely was of
at can into for research people have their on much
them don he edmund all with because
know those only about presentation and
maths yes quite

that the she been your how school some much language like not an them he who had kids said more are from people do would on there can yeah a of to is what they I but as well it could all when grade have or were then things mean just thing their for me we be got think my one you about because at why no say and

discuss on definitely student from
had but garcia think thought you
much done me because feel time can she
civil just absolutely have do not what
any be did lot or an were actually reading
sources good i her then it some war this
if could so is project english to
spanish going level little
bit spanish more really yeah js
able books was the as them very would no
for also a we felt them very would no
maybe at topic about your
that know

was help topic which we well do being their students me
that think your or good look can sleep yeah to
her little just this would there when if they sort
quite for you is like all be js she some with
energy on in so research science but have very no
and really more up because any bit at what
things other are much by know lot read a
about mean my houghton
physics the

and then research both would project going she
their artefact think lot no from we are
science maria questions with not of we are
time on year when doing does her same level bit just
do as part for yeah good work students an probably
there can have or self if it the yes quite was mx
any so done what at well this know i
bella but into something which been had actually who
impact them js about very you they is has did be
because howard a that really essay

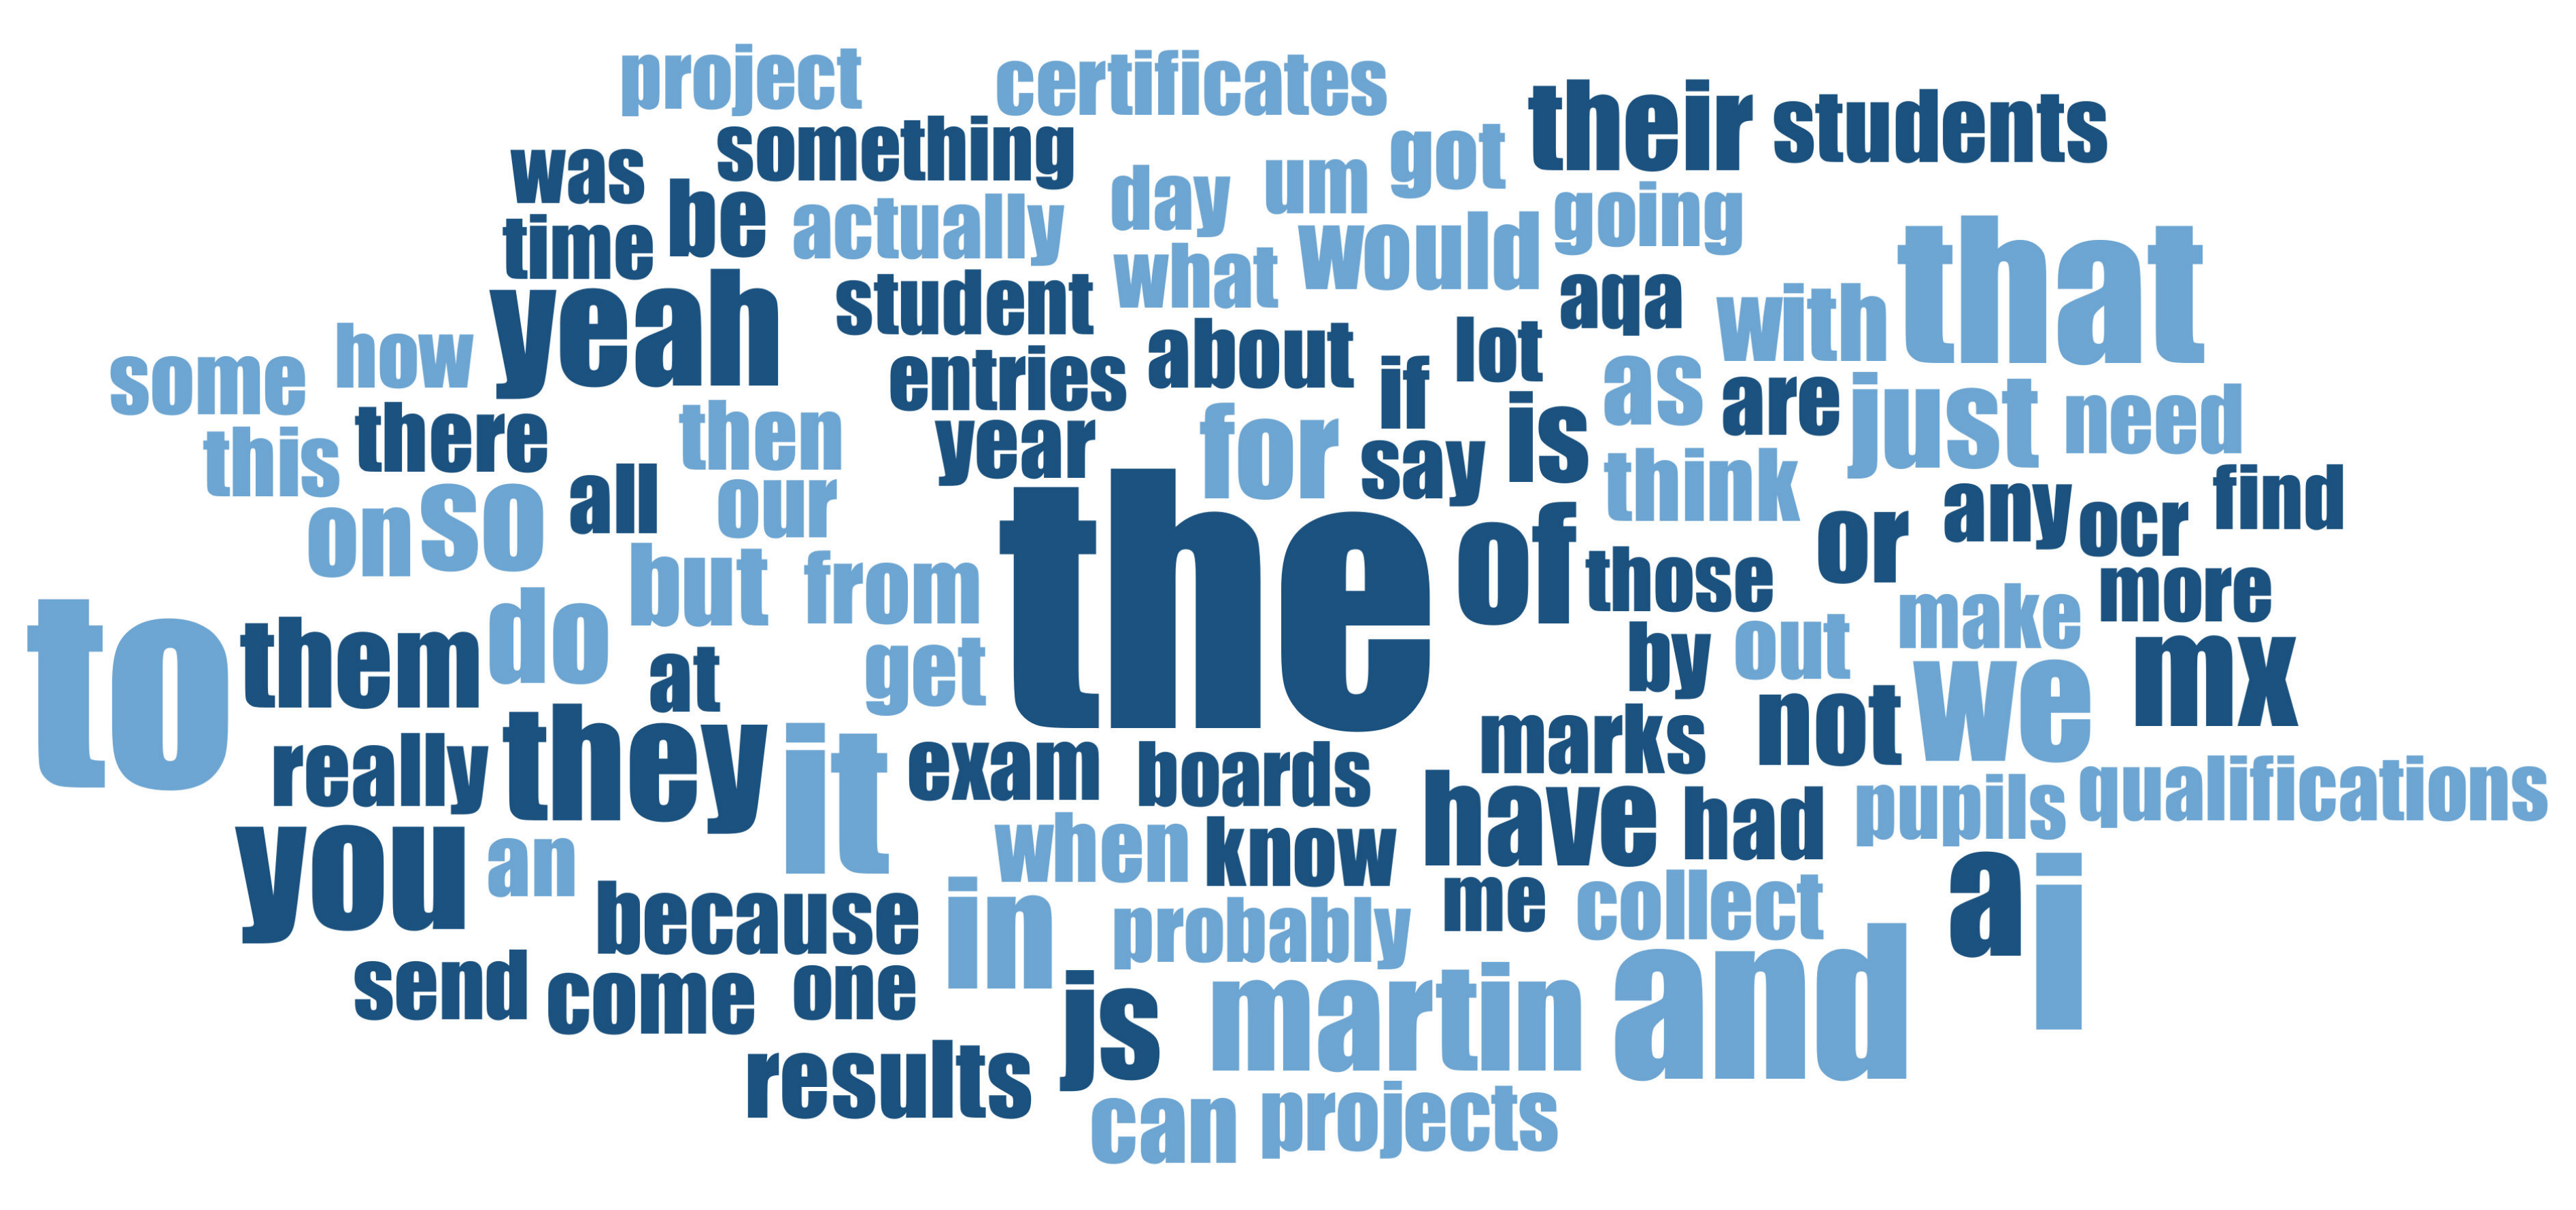

she
yeah do is they it
students said actually
where very let that much but yes make
essentially information project had
questioning if hard an come go at what the
really supervisor i think her as for of
js bit be them so i lot found when in a to
made those need say not ask or up me
difficult can just how wanted quite about fussy all could
were have on with would this questions any
catherine mx why did more was thinking process
came because certain amanda jacobson
way also

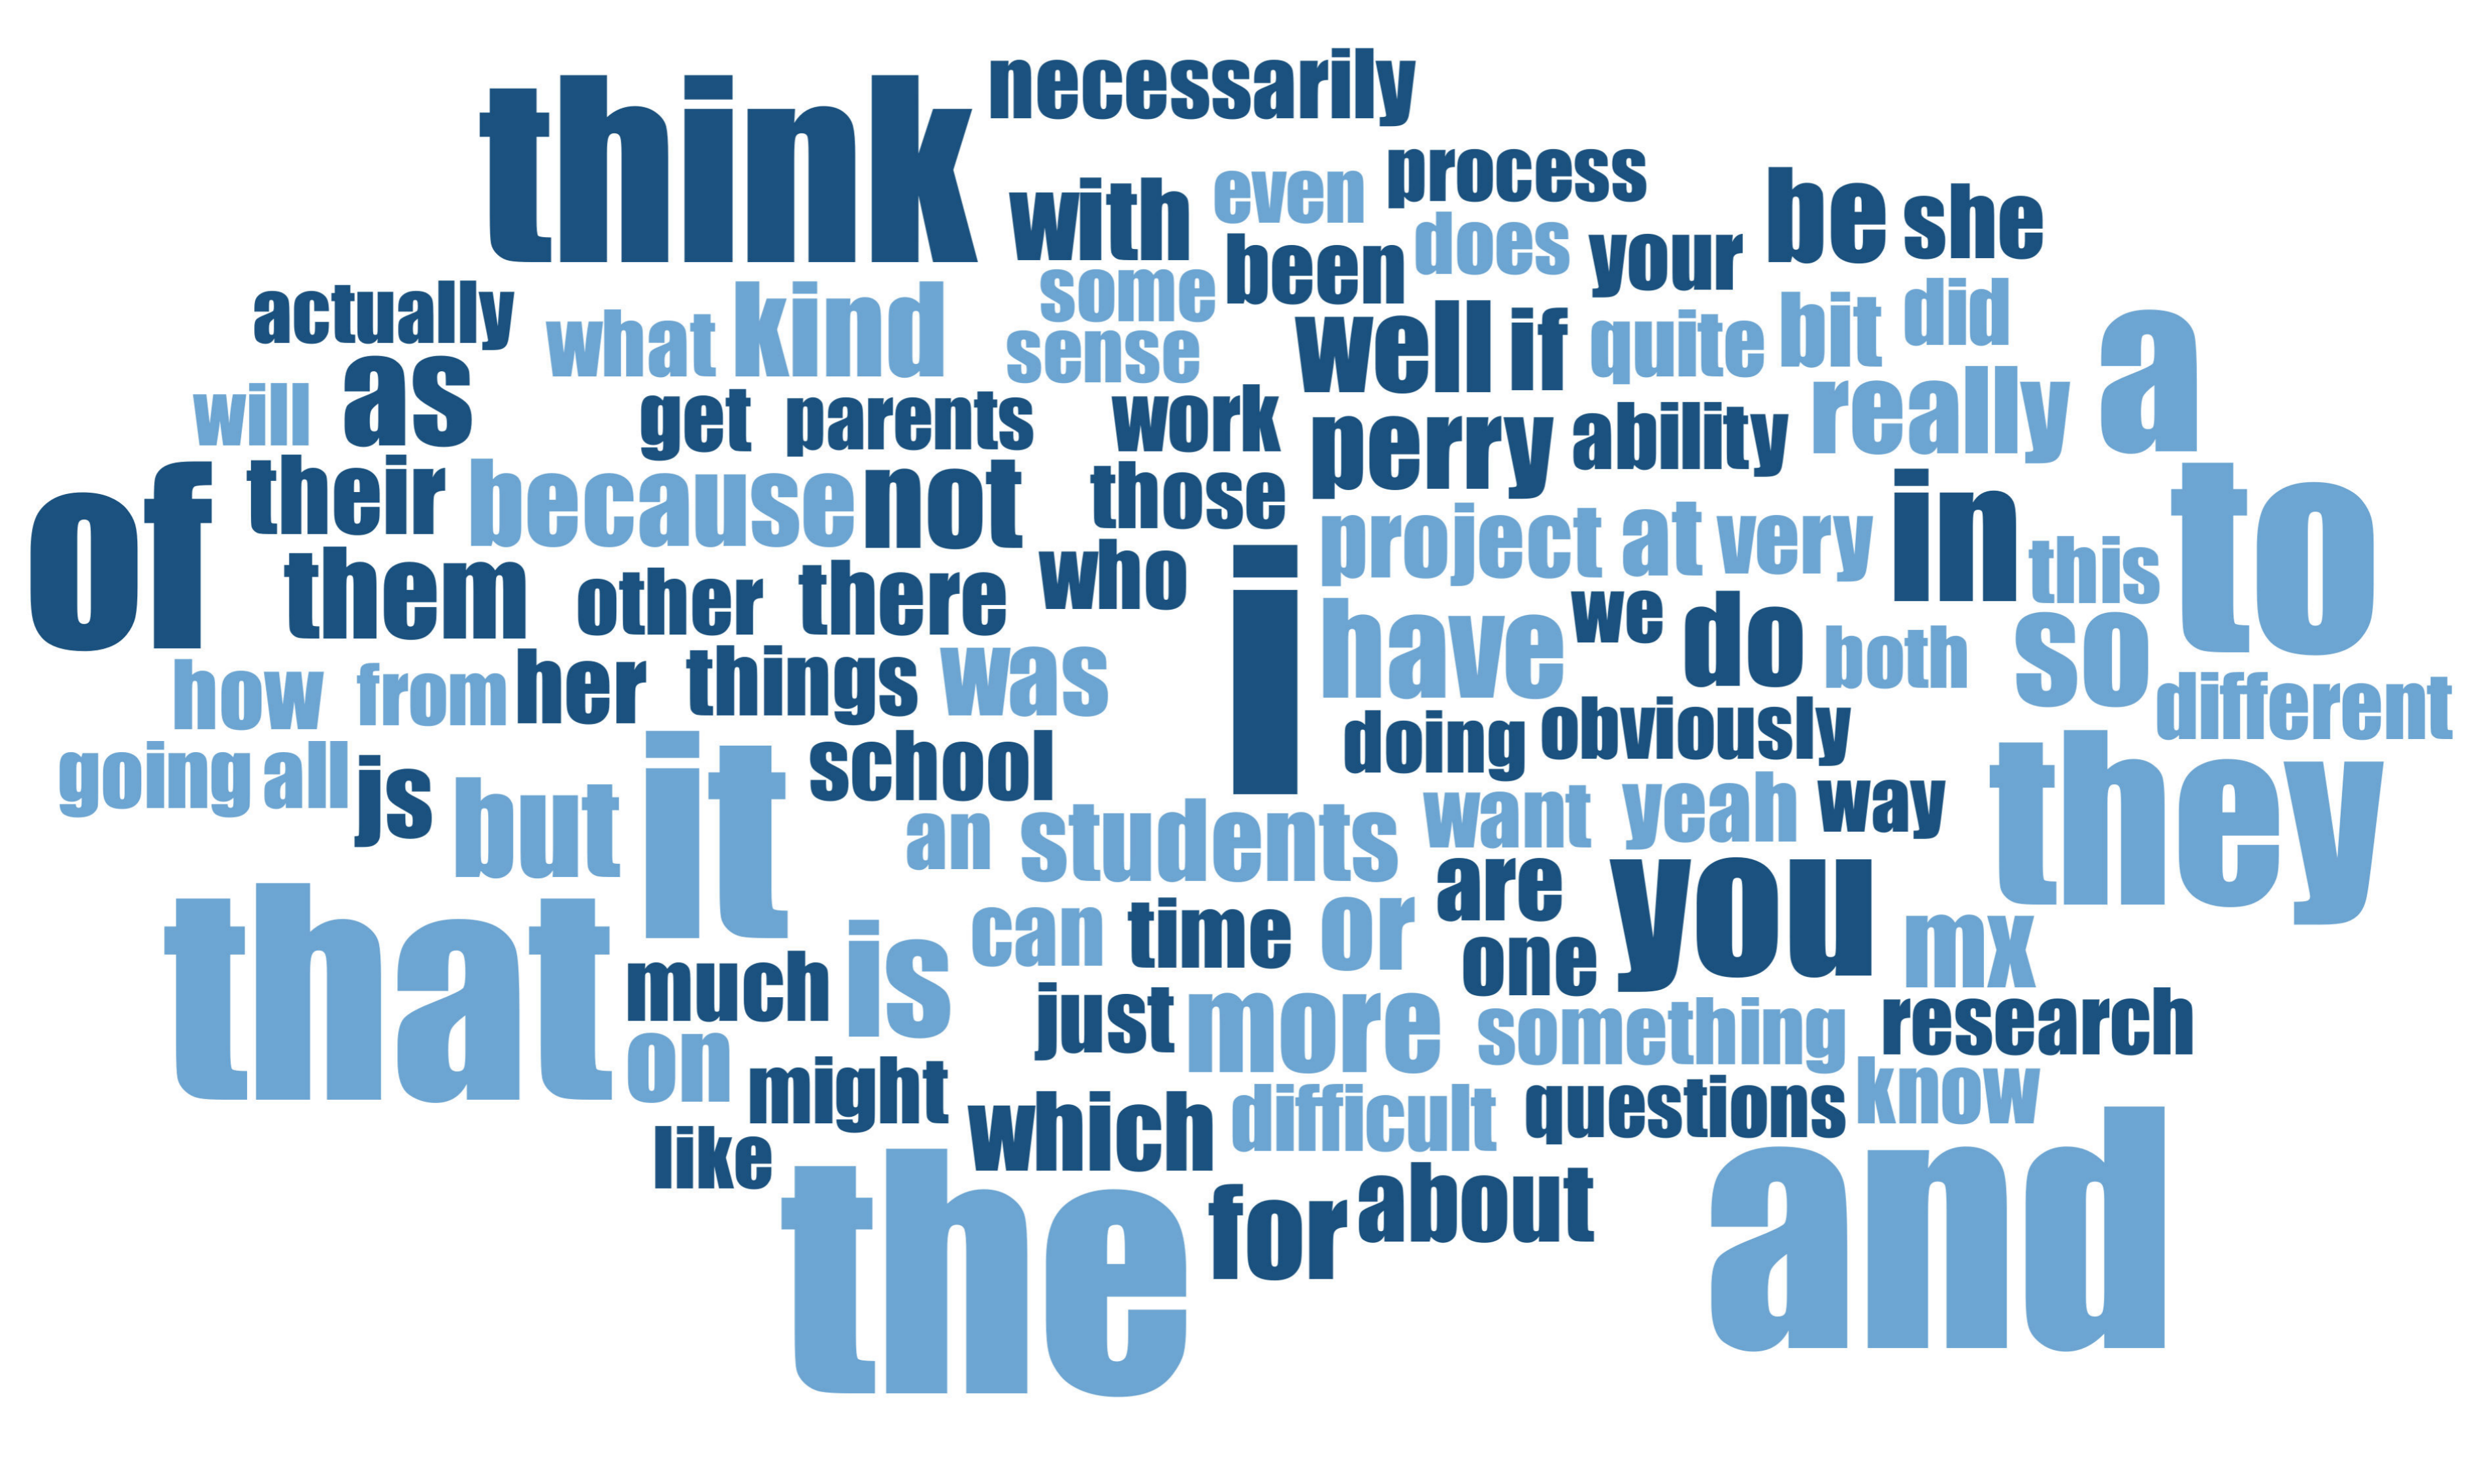

probably asked really history she
when presentation they lot some
well because had WAS doing would
with good more all much know about from a
sort said did quite there project mean
in for work out what but got if yeah yes think
year them then like Of see been this is her
who way at get science an we things be just not it
do my mx on to stem have so or you one
the johnson something me are you before
very bit time that and is

the
because by probably
this was mx also lamb there
something criteria one give week they know drama it
her greek time into go jane be can going
not did other project work had well how if so to
more but just from epq js as down things an she my
of or a have do think i yeah yes me your get
got knew we presentation doing home what in that
when done then good about and for
is any those take really marking mean
very them need you like are on at

one got like about much
need lesson going targets teaching how there it
would actually management js WAS been it
all now little is did if linford js maybe yes or Of
with really when an year i do no school him my in
YOU get he had on have i do no school him my in
didn't but that more we are out what the
come think just as so doing this go for
to say mx a then because
me not well things and

she with for out
which or some much what there
can have is an really SO something one and
could work more doing project they were
well mean because epq had about your MX say just
not cleo rachel when time yeah that them then
quite we of who lot time very get on but good level
her it if did bit be like how going is the
you in from at know research all this
got no at as kind think this
any olivier do as kind think this
year a yes actually was

A word cloud featuring various words in shades of blue. The largest words are 'the' at the top center and 'you' at the bottom center. Other prominent words include 'that', 'and', 'are', 'do', 'to', 'they', 'be', 'it', 'is', 'we', 'know', 'with', 'things', 'think', 'or', 'have', 'necessarily', 'therefore', 'their', 'maths', 'really', 'if', 'more', 'school', 'was', 'them', 'history', 'something', 'what', 'would', 'your', 'like', 'at', 'which', 'then', 'now', 'work', 'so', 'where', 'just', 'like', 'about', 'should', 'in', 'for', 'some', 'develop', 'come', 'how', 'want', 'up', 'are', 'quite', 'no', 'i', 'make', 'on', 'do', 'to', 'they', 'got', 'has', 'be', 'it', 'is', 'child', 'an', 'not', 'i', 'on', 'do', 'to', 'they', 'all', 'go', 'of', 'going', 'and', 'but', 'we', 'being', 'because', 'js', 'might', 'year', 'get', 'well', 'done', 'when', 'way', 'can', 'as', 'doing', 'need', 'from', 'people', 'a', 'these', 'know', 'with', 'things', 'or', 'have', 'me', 'different', 'think', 'peters', 'lesson', 'down', 'you'.

that because and
thought kind actually about
would for maths felt like two through know
this at people had phillips think it back
she just they little be me in did feel quite
to not as but i very my said going why
of if js is to her out say more when do things
want found can there their have then thing
some really them yeah well we bit so up
with on a all those you was
mx oh

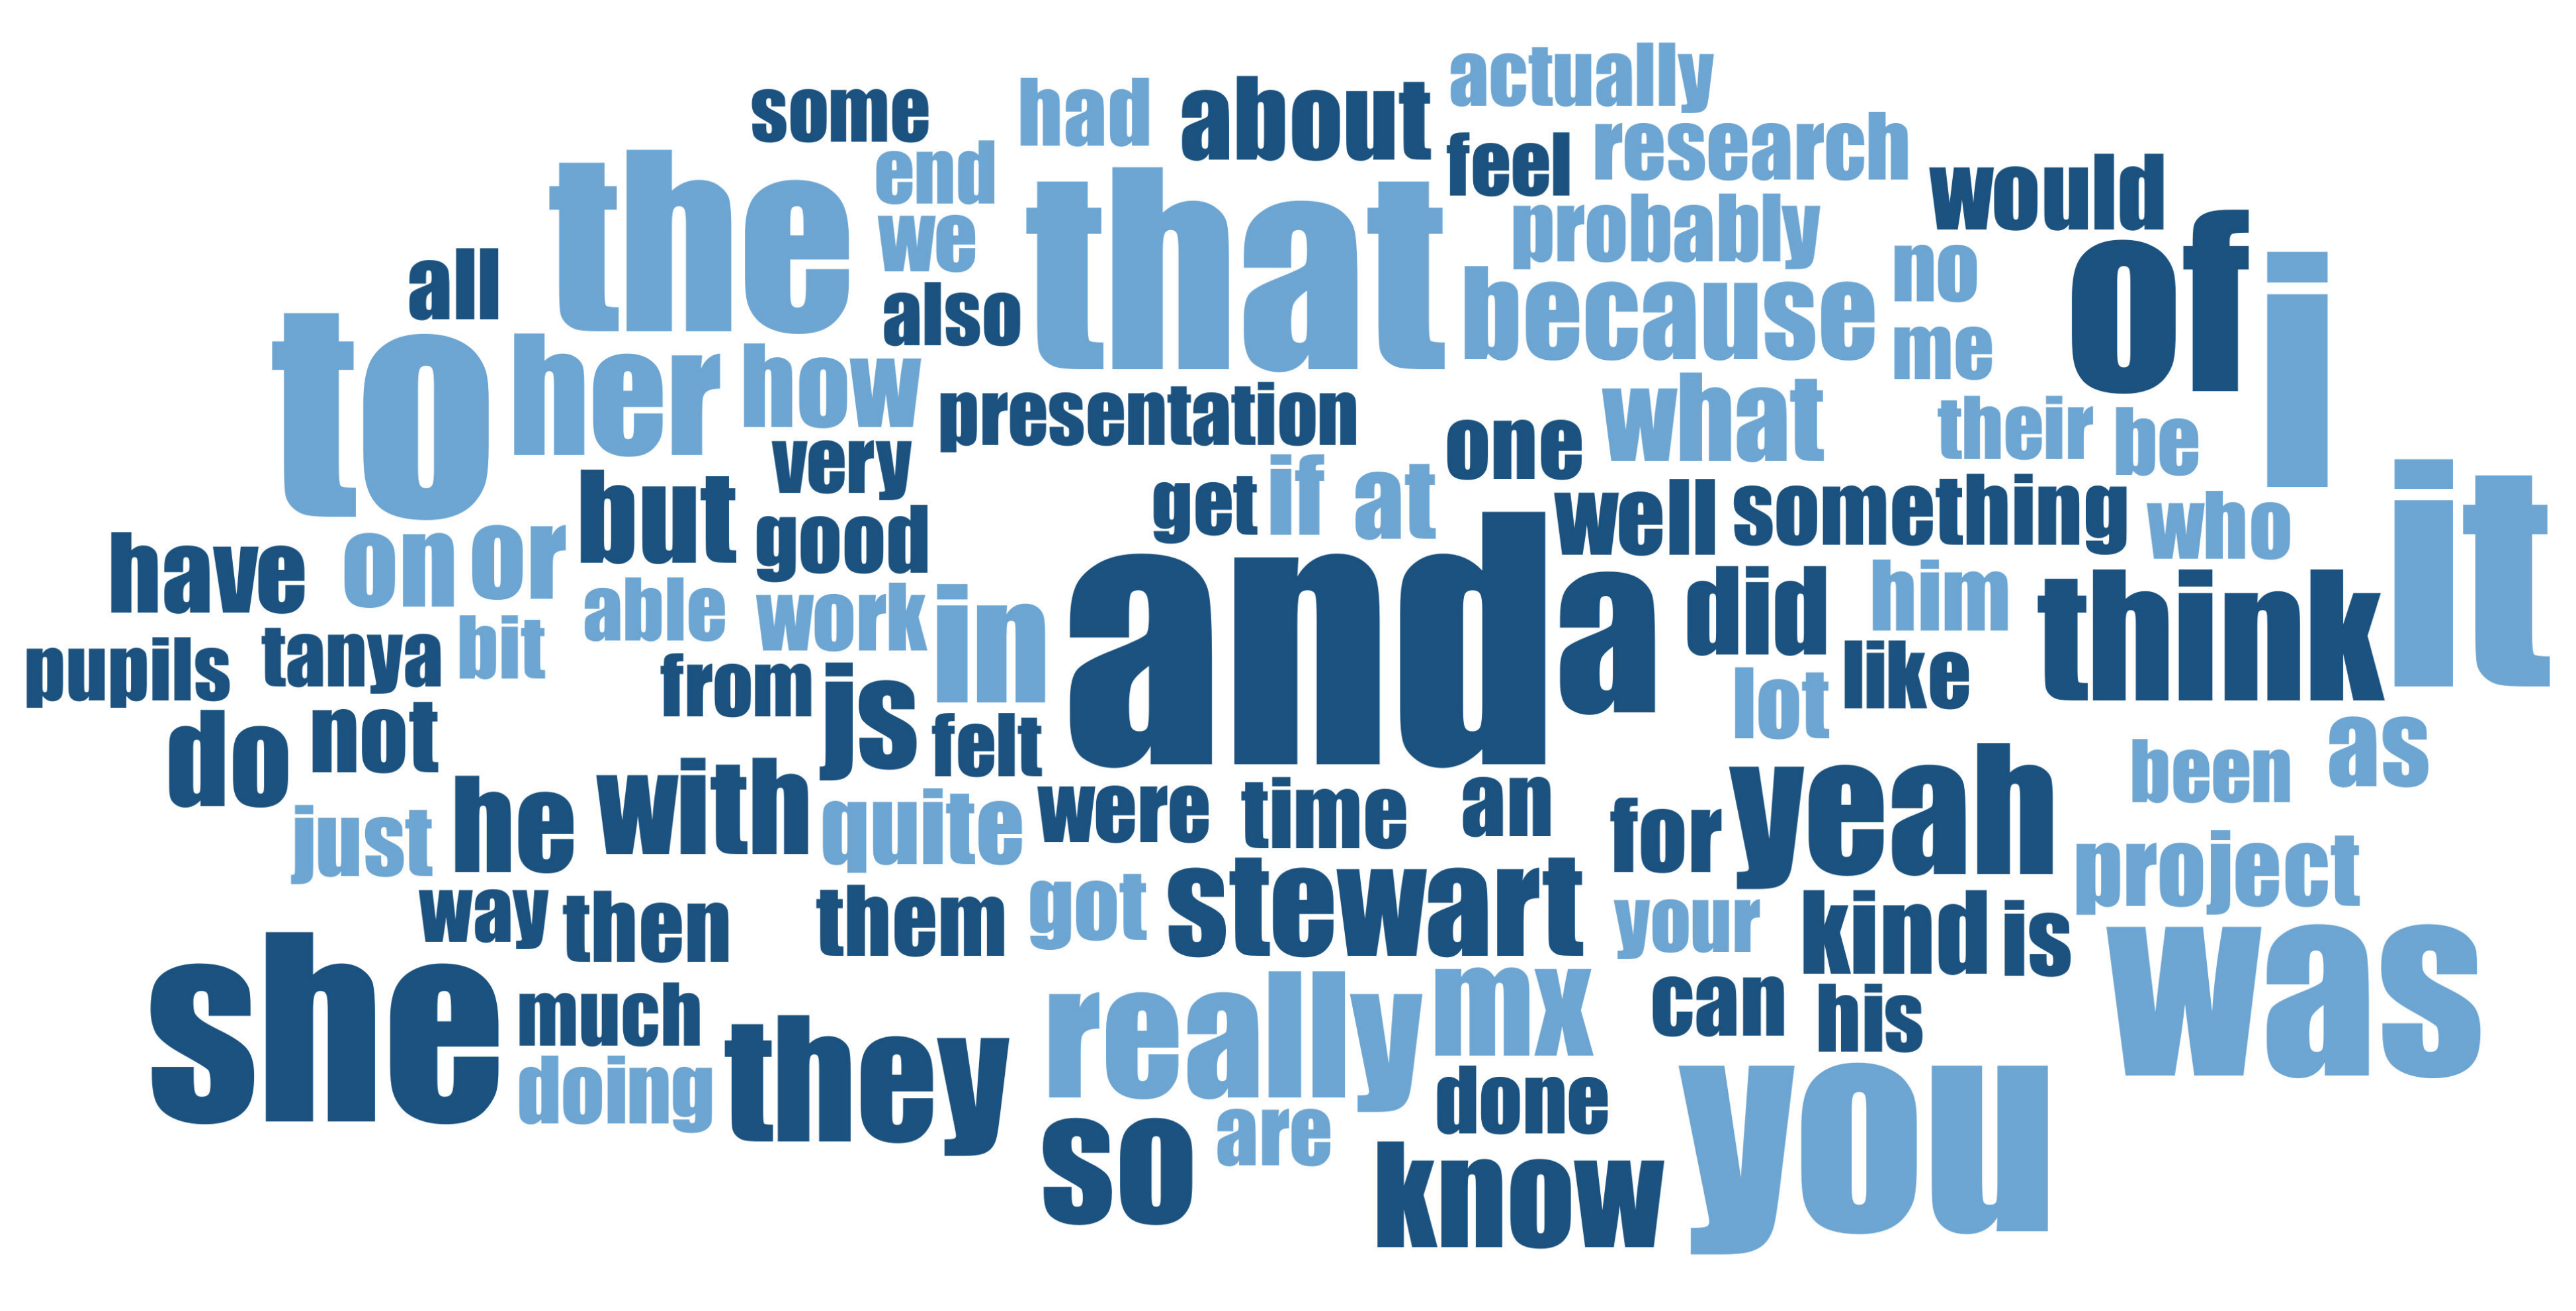

they
porter
and
that
with
have
what
then
those
it
to
was
think
because
do
she
her
so
really
doing
you
questions
caitlin
would
probably
in
not
their
them
about
research
things
very
get
bit
ask
could
kind
one
like
but
iyabo
were
subject
on
are
be
much
maybe
an
want
interested
helped
well
just
always
question
than

to schmidt at of meetings book every would what
mean definitely found her were on both
an different probably and research from well be not with
then when their perhaps no think yes more that
done know being probably and were on what
do she so by had no think yes more that
did if one been as there js those yeah obviously that
point them you bit little we doing actually some mx
or slightly in all space time but have for it a
the year in very workload how about useful going
they three because make focus clear quite
things project was

students come
think had essentially more yeah
of siddiqui in down everybody involved out
she if way something maybe MX them but what so
wasjs those are sort thing own be know get and
i said projects for go a the is felt could as
there at to event one do part project
on with we helping people just their really up
they it like some absolutely or have parents not
riverside you were any an about
computer this me evening been
that science

to
have
you
the
and
that
because
different
not
say
then
going
having
be
people
of
when
a
that
and
because
different
not
say
then
going
having
be
people
of
when
a
that

world really think done
feel he know actually them
things could might with they this end
mx his just js or was been if all very is
so got from her more what do out star
your their as time we in the at well like come
about me some epq would way are one
how before by not different because for it
essay but quite say then going having be people of
who were when something a that
mean an want

the that because of

to her how presentation one what well something who did him think it

and a lot like year project kind is

she you was they really know you was

stewart really know you was

and found
sometimes interesting
right
yeah said able good kind student hannah
be time had her my we probably no this at really the
to she how for things working or
you quite then say a there your think that
so of have all from yes some just support if
epq me do js did very more terms project with in what
they has it is taylor like know been mx actually
has an is taylor like know been mx actually
was because year definitely but are sociology outside on would
almost does

been depends no think
does twyford more their then
things just have with would something other
all could about research what being are me at
had having not we good sometimes they for
it bit js on teaching i there sort
can when well if mean in be much guess so do
got maybe from epq time students want don't is lot
quite up as has them was and mx you a
english an know where and mx you a
day but within probably able work
because people some your that
really

yeah wright doing well
probably help two through
feel in her had like on could their into very
before or them why really work all different
an at lot with want more think about but that
she for kind talk
here just is not when do you art is are kind being
from what level be sort things my might there going
your time so as was something have maybe we
it a good know because if did always
mx and quite to
to

the she was into that and you what a he young think with much could on their they how way his get been perhaps going talk music be my time than do wanted out more he if were something did are really SO yes would there something did are really SO yes all any MX or why yeah into but project no an i of at quite a we from looking have not when you i is one say had her them know jane is as lot for was her very about what me and this well because that

something natasha much obviously
felt working know think writing
university maybe time all hard had we do
oh feel an same one way just gcse
your if in really kind then well hpaq some SO
bit my they be why js with for what from are
is a me have at say go on did not the more of
it like because lot yeah were was to but
that no going and people you
project

which helpful that not
but sometimes quite your nora want sure
would way always topic be you much had
able my different when on going it to
in a lot made things wanted SO they the
where more there work time make about knew sort own
good is write with how or were at Of go out have just doing
was well could might if laughter say other hpa
and found js because yeah did can like for do
know essay really definitely me what
epq as think learning an writing
information
something

and
done much
then could
is really work
on know there
time but doing Of from
going when would we
she them independent What have one kind
do don got like some well more if out quite oh it
the this year to for as SO just with things say your
had can all my think or how did said go a
at yeah me probably over very were about no
was they lessons went into bit that
definitely rebecca an
because project something wanted

that
research
people from things definitely something
it mean about not more her epq how
before actually doing biology which level
has up been like other can do example way
kind she into work this if you some was the
get time we just papers for as at of
me your lot my would be know say is but js
what are a yes who one because so have an
really on them going rose terms they
in when here out paper feel and
to different

work lot
something have how good got what
it much going done sarah not be no about
but bit really had did this so of or
why know with your well some one stuff to feel
like ruby she different do js is can felt my them
time want at hpa that all oh if me out
think a get we were kind in then on
when now would just people are say and
the yeah things more because as for you
they doing there cara was her

think interesting and watched quite they but
with a kind just little exam any obviously quite
get is want if then all can had make say they
more for not documentaries go really Of my well
did JS lot at there in bit good be on what epq
were been why she are especially we got art he people
it to media sort that things much would or one
you the do like because was yeah as
photography about tessa how
your so an something

because make
you theodora on
jackie much but things all do or about and
doris if she then in there as we have any
up how was fun want people know with like out for
yeah just could an at so they my a quite of
it not what doing time might lot more js work
go the this something would well does that
be can to mum other me is are
your to going speaking get

some want be did
more not read of like information
bit for violet who when book they any doing
really going then would was with your
the lots if how able down do to it
what can all on project have about say people
from get might fpq js work got she know
me very yeah write at good my something this
just done lot also there one could things as in
had is think you because but a well
that independent so them supervisor
or meetings different and

just really were which think people because they useful like topic if got way did work an be meant of doing all get writing have not will good time of know violet well in or that this able with when on book my is done in or that it sure a how much had for any about do everything things from could them at write and can make the but say there other would she one quite feel so your js understand me who you as project lot are was to yeah more then

project was going like
this help laughter school people get find
kind could teacher need them you if my
we time but me are violet chelsea go jenny it what
do well so something in as there he yeah want
to your they of at be she an can might would
the had for feel same or say just more is
know a her have when probably not on anything
different all always molly one js really supervisor
no think about then way how with who
because that and
doing bit

that and you violet it do the because can MS not think when what with much no said has got always them then say did would mum just in good but he because can MS not about we had were kind people davis my she if also was be like is one js who to are a they for get there lot well your at sister an to more as any or her on doing know so me might all quite really definitely year work how that things you project yeah and content yeah and
